

Appendix L: Site Evidence Reviews

(Cross reference to Section 4.3 of the Report)

Tranche 1 sites

This Appendix provides the Site Evidence Review documents together with a Figure, for the sites where a boundary assessment could be carried out, showing all the available data that could be used for the assessment.

Highlighted text thus **grey** is intentional and distinguishes the provider of the anecdotal evidence.

Non Tranche 1 sites

The Site Evidence Review documents for non Tranche 1 sites are divided into three sections the data provided by the Regional MCZ Projects that intersected the MCZ boundary, the data /information obtained by the MB0116 project during the data collection period (March to June 2012) and the data/information that could not be obtained within the timeframe.
