

# ANALYSIS OF THE COSTS AND BENEFITS OF ALTERNATIVE SOLUTIONS FOR RESTORING BIODIVERSITY

Defra Competition Code: WC0758/CR0444

## ***Appendix 4. Web of Science (February 2010) and EVRI (July 2010) search terms for recreation studies:***

For Web of Science, the terms “willing to pay” and “contingent valuation” were each combined with the following terms (the activities applicable to the case studies).

For EVRI, a keyword search of just the following terms was used:

- recreation
- walk\*
- horse
- bik\*
- bike
- cycl\*
- cycle
- climb\*
- angl\*
- fish\*
- hunt\*
- water sports
- boat\*
- canoe\*
- kayak
- rowing
- swim\*
- camp\*
- picnic\*
- nature watching
- bird watching
- sight-seeing
- gliding

Other search terms were:

- recreation UK
- “benefit transfer” recreation
- recreation valu\* national park

References were also obtained from several reviews, including O’Gorman and Bann (2008a), (Kettunen et al., 2009a) and Natural England (2009b).
