L3 m8-2 (D) Bibliography of documents reviewed

This chapter provides a bibliography of all the documents reviewed which informed the writing of this report. The sources have been divided into the main 'entry points' discussed in the report. Additional signposts or documents which have been skimmed rather than reviewed are recorded in the footnotes of each module. Some documents informed various chapters so they will appear under more than one heading. A handful of documents were used to only inform the topic specific top level papers. For a full set of documents sourced and reviewed see [L4-1 Scoping database](#).

For a separate list of only the WREP projects reviewed please consult [table L2 m1 Technical Report](#). Copies of the WREP reports can be accessed on the Defra website <http://randd.defra.gov.uk/> – click on 'search' and enter the reference number (e.g. WR0209) as the keyword.
